From the desk of Dave Stokoe

Happy Robbie Burns Day!

We have asked Dave Keddie to please not wear his kilt during installs using a ladder. It has been far too cold.

As we move into 2009, with tough economic times ahead. Stokoe Communications wants to ensure its customers that they will provide cost effective reliable service lowering overall cost of ownership.

We are featuring a Network IP PTZ Camera, in this months bulletin. We look forward in providing solutions for all of your video needs.

Sincerely,

Dave Stokoe

Dave Keddie, Sr Technical Advisor
